TWP801 Cleaner

Liquid Cleaner For Food Plant Use

TWP801 Cleaner is a liquid cleaner formulated for Food Plant Use. It effectively cleans floors, walls, chrome, stainless steel and many other hard surfaces, where heavy grease, grime, dirt and related residues exist. Be sure that all equipment or surfaces, subject to direct contact with food, are **thoroughly rinsed with potable water** after treatment with TWP801 Cleaner, so that there will be **NO** contamination of food as a result of its use. When rinsed thoroughly it will not leave a residual odor on surfaces and/or will not mask odors resulting from unsanitary conditions when used in food handling areas.

DIRECTIONS FOR USE:

General Cleaning: Dilute 6 – 32 ml per liter of water. Apply by spraying or by hand scrubbing. **Rinse thoroughly with potable water.** * Note; use rubber globes when scrubbing by hand. *

Foam Cleaning: Dilute 14 – 32 ml per liter of water, depending on soil buildup. Foam solution onto soiled surface; scrub if necessary. **Rinse thoroughly with potable water.** May be used through a pressure washer at the same ratio depending on amount of soil on surface.

PACKAGING AVAILABILITY:

20 Liters

PHYSICAL PROPERTIES:

Type: Liquid Color: Blue Odor: Pungent
